Want to build new features and products that touch more than a billion people around the world? Want to build new features that improve existing products like Photos, Groups, NewsFeed, Search, and Messaging? Want to solve unique, large-scale, highly complex technical problems?

Our development cycle is extremely fast, and we've built tools to keep it that way. It's common to write code and have it running live on the site hours later. If you work for us you will make an impact, immediately.

Facebook is seeking interns/co-ops to join our engineering team. As a Software Engineer Intern, you'll drive the development of systems behind Facebook's products, create web applications that reach millions of people, build high volume servers and be a part of a team that's working to help connect people around the globe.

This internship/co-op has a minimum twelve (12) week duration.

Software Engineer, Intern/Co-op Responsibilities

✓ Code high-volume software using primarily C++ and Java

✓ Create web applications using primarily PHP

✓ Implement web interfaces using XHTML, CSS, and JavaScript

✓ Build report interfaces and data feeds

Minimum Qualifications

✓ 1 or more years of experience with perl, java, php, python, or c++

✓ Must be currently enrolled in a full-time, degree-seeking program and in the process of obtaining a Bachelors or Masters degree in Computer Science or a related field

✓ Must obtain work authorization in country of employment at the time of hire, and maintain ongoing work authorization during employment

Preferred Qualifications

COVID-19 update: Protecting the health and safety of our communities—including our teams and of those considering a career at Facebook—is our highest priority. We continue to closely monitor the evolving situation and we appreciate your understanding and flexibility with any related changes to our interviewing process. Learn how our teams are helping to keep people safe, informed, and connected.

✕

that connects billions of people around the world, gives them ways to share what matters most to them, and helps bring people closer together. Whether we're creating new products or helping a small business expand its reach, people at Facebook are builders at heart. Our global teams are constantly iterating, solving problems, and working together to empower people around the world to build community and connect in meaningful ways. Together, we can help people build stronger communities — we're just getting started.

Facebook is committed to providing reasonable accommodations for qualified individuals with disabilities and disabled veterans in our job application procedures. If you need assistance or an accommodation due to a disability, you may contact us at accommodations-ext@fb.com.
